FINANCIAL AND COMMERCIAL.

SUNDAY, Feb. 2, 1868. The gold market was steady and quiet during the set week, the fluctuations having been limited to 1% or cent—namely, from 141% to 140%, with the closing as at 140% a 140%. Foin was in superabund sat for carrying. The demand for customs a little larger than usual of late, the receipts sable that the expenditures of the governrainst by the foreign bankers, who are the largest hold-rs of gold, and an impression very generally prevails

seginning of the week, reacted, under sales of specula-ive loss to realize profits, about 3, a 3, per cent. The market remained unsettled for two or three days, but 1862 and the old issue of 1865 for shipment. There as been of late more speculative animation on the

siver, 24 a 2414.

The money market was extremely easy and loans to stock bouses were made at 4 a 5 per cent, with the great majority of transactions in miscellaneous collaterals at five per cent, while the rate on governments was almost exclusively four. The supply of first class commercial paper was light, and it found buyers at 5½ a 6½ per cent. The Sub-Treasury nominally increased its calance to the amount of more than seventeen millions during the last three weeks in January, but at the end of the month the balance endoonly fell from more than a hun-dred and eleven millions to ninety-seven millions and a dred and eleven millions to ninety-seven millions and a half, partly owing to "marking off" in the accounts and partly, it is supposed, to purchases of seven-thirty motes. The foreign exchange market was firm and rates ad-vanced % a % per cent for sterling, under a scarcity of cotton and general produce bills. On Friday the leading drawers asked 110 for sixty days bills on London, and as drawers asked 110 for sixty days bills on London, and as this rate permits of the export of specie the advance is not without material influence in strengthening the gold premium; but at present; the demand from importers for remittance is light. Bankers' bills on England at sixty days were quoted at the close at 109% a 110; at three days, 110 a 110%; commercial bills, 100 a 100%. Bills on Parse at sixty days, 6.15 a 5.13%; at three days, 5.12% a 7.1%. On Berlin—Bankers', 72 a 72%; commercial, 71% a 7.1%. On Bremen—Bankers', 75% a 70; commercial, 79 a 70%. On Frankfert—Bankers', 75% a 70; commercial, 79 a 70%. 8% a 79; commercial, 79 a 79%. On Frankfort—Bank. fam—Bankers', 41 a 41%; commercial, 40% a 40%. On Hamburg—Bankers', 36% a 36%; commercial, 36% a 36. On Antwerp—Bankers', 5.16% a 5.14%; comcial. 5.20 a 5.1714

Doubtless every one is familiar with the double picture so frequently seen is the print shops exhibiting pictorially the state of mind preduced upon an old gentleman by the varying quotations of stocks "on "Change." "Stocks up and stocks down" are undoubtedly descriptive, it being a most natural quality of human nature that men would exhibit through their features the condition of mind affecting them, whether of disappointment or advantage. Taking this as a criterion, it is safe to assume that the trade in dry goods (in a ron, it is said to assume that the trade in dry goods (in a reporterial sense technicalities of expression are of little accounts, has been during the last week somewhat brisker than on previous occasions, judging by the pleasant faces of dealers; in fact, taking an authority which may be considered as telerably reliable, the parket he has a very solid.

vancing. In bicsobed and fine brown goods a great demand is apparent, the latter appearing extremely scarce; ticks, denims and stripes are much the same as formerly reported. The surplus of cotten goods was much over estimated, the stock in hands of city job-bers proving to be generally small and quickly disappearing. The following are the latest quotations:
